CHAIRMAN'S MESSAGE.

Dear Parents,

I heartily welcome your child to Future Vidyarthi family.

It is my vision to provide the world with motivated, responsible and disciplined youth, to shape a better future. When the word "education" comes to our mind, it weaves a picture in our minds - a student is learning and a teacher is teaching - but "education" is beyond the classical chalk and talk method. It has now evolved into the giant wheel that has many spokes such as personality management, time management, stress management, preparedness for competitions and technical expertise etc. Future Vidyarthi tries to nurture and foster the skills that are required for a career, which these teens can choose for themselves after their +2 level. Our institution doesn't believe in preaching, instead we have a work culture which our students can feel, experience and remember forever. I believe that education is a tripartite process which is a bridge connection among students, institution and parents. The proper balance provides a solid foundation for future growth of students. My endeavour is to strike a balance between hygienic living and teaching-learning environment. I can assure you, your child and you don't feel regretted in keeping faith in us and a part of Future Vidyarthi family.

With all good wishes...

NUTAN KUMAR GHANA
